

Thematic Session

Session title: Information and Communication in Mathematics

Organizers:

Wolfgang Dalitz, ZIB Berlin, dalitz@zib.de

Aleksander Nowiński, ICM Warszawa, a.nowinski@icm.edu.pl

Wolfram Sperber, FIZ Karlsruhe, Department Mathematics and Computer Science,
wolfram@zentralblatt-math.org

Description of the topic:

The electronic medium has changed the general framework of mathematical publishing, information access, and scholarly communication also in mathematics dramatically: There are a lot of activities worldwide to improve the digital communication for information and communication infrastructure and the tools knowledge management in mathematics. The thematic symposium addresses some of the most significant challenges and changings of mathematics on the Web, e.g., mathematical publishing, Open Access and digital libraries, mathematical blogs, and mathematical knowledge management.
